# DSI ACCESSIBLE PARK

*Building a park for everyone*

## History

In 2012, a dog park was created just one mile north of Webster. The Village of Webster provided the land, and volunteers raised the funds (which Nexen Group, Inc. matched) to purchase and install fencing, signs, etc. The park is up and running, and provides an excellent area to exercise dogs (and owners), provides an atmosphere for socialization, and is a nice area to get away. It has a general area, a separate area for small dogs, and a training area. All areas are double-gated to prevent runaways.

## Our story

DSI became active in the fundraising for the park which lead to an idea of building an accessible park that surrounds the dog park. This will be a place where people of all ages and abilities can play. Each aspect of the park *and* trail will meet all Americans with Disabilities Act (ADA) requirements. DSI wrote a grant to the Bremer Foundation to help fund the infrastructure of the park. The Bremer Foundation supported the idea and in 2013, construction began on a walking trail and playground area.

Now, money is being raised to help fund the playground equipment. Landscape Structures manufactures playground equipment and specializes in making it accessible for people with disabilities.

## Accessible Playground

Multiple pieces will be accessible for people with disabilities

Built in a way that future expansion is possible

## Accessible Trail

Trail is approximately 1/2 mile

1/2 will be paved, connecting the playground to the Gandy Dancer Trail

1/2 will be gravel

## How you can help
